**Sisters and Brothers of St. Lucy:** in December of 2009 the parish participated in a Santa Clara program that provided new, low energy Compact Fluorescent Lights (CFLs) for the church. Both the cost of the light bulbs and their installation was free to St. Lucy. The results of this project have been two-fold: 1) most important, the energy costs for the church are now about 30% of what they were with old halogen lights; and 2) the failure rate of the new bulbs has been unacceptable. If you were to turn your eyes to the heavens while in church, you may have noticed that on any given day there were many lights out. Our experience has been that approximately 30% of the bulbs fail every 6 months. Given that there are 254 light bulbs in the church ceiling, that means we were spending a good bit of time and energy (no pun intended) replacing light bulbs. This has also increased the wear and tear on the light fixtures themselves and we now have three that need repair. The good news is that the cost of new, even more energy efficient LED bulbs has dropped and made it possible to initiate a pilot project to see if the LED bulbs are any better suited to illuminate our church than the CFLs. This past Wednesday Bill Winters, Paul Hopwood, Chuck Rombeck, Mike Yarbrough, Steve Duffy, David Woodham and Mike Huntington of the Bishop O'Dowd Knights of Columbus Round Table assisted me and Vince Cortez in installing 54 LED lights in the highest areas of the church ceiling. These new lights are brighter than the CFLs and have a much longer projected lifespan. They also give the church a much brighter appearance – note that the mosaic of Jesus behind the altar is now noticeably brighter. We plan to monitor the failure rate of the new LEDs between now and Christmas. If they have the low failure rate we expect them to have, we will purchase sufficient LED bulbs to upgrade the remaining lights. A very special Thank You! to the Knights for spending an entire day replacing lights in the church, PAC and grounds!

In case you were wondering.... One of the projectors has been broken now for several weeks. It is very complicated to dismount it from the ceiling, requiring the use of a lift in order to avoid damage to the projector and injury to the personnel involved. This past Wednesday we had a lift on-site and were finally able to dismount it from the ceiling and have shipped it back to the factory for repair. We should have it back in about two week.

**Hermanas y hermanos de Santa Lucía:** en diciembre de 2009 la parroquia participo en un programa ofrecido por Santa Clara que nos proporcionó nuevas lámparas fluorescentes de bajo consumo (CFL) para la iglesia. Tanto el costo de los focos y su instalación fue sin costo para Santa Lucía. Los resultados de este proyecto han sido de dos tipos: 1) más importante, los costos de energía para la iglesia han disminuido por un 30% de lo que eran con luces halógenas, y 2) las fallas de los nuevos focos ha sido inaceptable. Si se fija en el techo de la Iglesia, se ha dado cuenta de que en cualquier día muchas luces que no funcionan. Nuestra experiencia ha sido que aproximadamente el 30% de las lámparas fallan cada 6 meses. Dado que hay 254 focos en el techo de la iglesia, significa que estábamos gastando una buena cantidad de tiempo y energía sustituyendo los focos. Esto también ha aumentado el desgaste de las lámparas y ahora tenemos tres que necesitan reparación. La buena noticia es que el costo de los focos LED de bajo consumo ha reducido y nos ha permitido iniciar un proyecto piloto para ver si los focos LED son más adecuados para iluminar la iglesia. El miércoles pasado Bill Winters, Paul Hopwood, Chuck Rombeck, Mike Yarbrough, Steve Duffy, David Woodham y Mike Huntington del grupo Knights of Columbus nos asistieron en la instalación de 54 luces LED en las zonas más altas del techo de la iglesia. Estas nuevas luces son más brillantes que las lámparas fluorescentes y tienen una vida útil mucho más larga. También le dan a la iglesia un aspecto mucho más brillante - tome en cuenta que el mosaico de Jesús detrás del altar está más brillante. Si vemos que no fallan muy seguido, vamos a comprar suficientes focos LED para actualizar el resto de luces. Le damos las gracias a los Knoghts of Columbus por pasar un día entero en la sustitución de las luces de la iglesia, PAC y los jardines.

En caso de que han fijado... Uno de los proyectores ha estado roto por varias semanas. Es muy complicado desmontarlo del techo, lo que requiere el uso de un ascensor con el fin de evitar daños al proyector y lesiones al personal involucrado. El miércoles pasado tuvimos un ascensor y al final pudimos desmontarlo del techo. Lo hemos enviado a la fábrica para su reparación. Debemos tenerlo de vuelta en aproximadamente dos semanas.
